Detailed Program Description for ACVD Website

1. Program name and location:

   Animal Dermatology Clinic - Wayne
   Wayne, NJ, White Plains, NY, Rockland, NY

2. Is the program currently on ACVD Probation? No

3. Mentor(s):
   a. Name: Andrew Rosenberg, DVM, DACVD
      1. Years in ACVD: 9
      2. Years as Mentor: 6
   b. Name: Daniel Bowden, DVM, DACVD
      1. Years in ACVD: 5
      2. Years as Mentor: 3
   c. Name: Allison Inga, DVM, DACVD
      1. Years in ACVD: 2
      2. Years as Mentor: 0

4. Specific requirements for applying to the program:
   a. Be a graduate of an AVMA approved veterinary school or college, or a graduate of an accredited and recognized school from another country.
   b. Have completed a one-year internship or practice equivalency.
   c. Be approved to practice veterinary medicine in a state of the United States, province of Canada, or country of citizenship.

6. Is a Master’s degree or PhD required? No If so, which ________

7. When the residency was first offered? July 2018
   Has it been continuous since then? yes
   If not continual what years was the residency offered?

8. How many residents have been accepted into the program since inception? Two
   How many of these have become board certified dermatologists?
9. What is the average annual dermatology caseload for the institution over the past 5 years? **4,164** cases per year

10. What is the average total caseload seen the entire residency? **Approx. 12,492** cases (average cases annually times the number of years of residency)

11. On average, how many new patients, rechecks and consults does the program see per year? (give these in actual numbers of cases)
   a. New cases – 1,164
   b. Rechecks – 3,000
   c. Consults - NA

12. On average, what percentage of the program's cases are dogs and cats?
   **Dogs: 85%**  **Cats: 15%**

13. On average, how many exotic, equine and farm animal cases does the program see per year?  Exotics **2**  Equine **0**  Farm animals **0**

14. What percentage of time is the mentor in clinics with the resident while the resident is seeing cases during the resident's first year: **100%**, second: **>95%** and third: **>95%**
   
   *(This means that the mentor is either physically seeing patients with the resident or can be contacted by phone and available to see the case within one hour of being called.)*

15. Does the program have access to other specialists?  **Yes – but not on site**
   If so, please list:
   We are a dermatology only practice. However, we work closely with 2 multispecialty practices and have regular consultations with internists, surgeons, oncologists, cardiologists, radiologists, neurologists, and ophthalmologists. Additionally, for difficult anesthesia cases, we have a board-certified anesthesiologist come to our office and provide anesthesia services.

16. Please describe your library access:
   a. Office library of up to date textbooks and journals
   b. **ACVD Online Library**

17. Does the program have statistical support for their residents' research projects? **Yes**

18. Does the program have direct access to any basic science or clinical science laboratories that the resident can use for research proposes? **No**
If yes, please describe the types of laboratories available and interactions that the resident may have with them.

19. How often do the residents and mentors have the following rounds? 
   (For each type of rounds, please list how often they are held, how long each session is, and a detailed description of how they are conducted.)

   a. Case rounds: Informal case rounds occur throughout the day. Formal resident case rounds are held for an hour on a weekly basis during which, cases the resident saw are randomly chosen and reviewed. Additionally, all of the resident’s referral letters from all cases will be reviewed by a mentor initially.

   b. Journal club: Two monthly sessions, 2 hours per session

   c. Histopathology training: 4 hours per month (weekly sessions 1 hour/each) Pathology training will be performed by Karen Trainor, DACVP As training progresses slides from residents’ biopsies will be reviewed.

   d. Basic science learning rounds: Monthly – 4 hours The resident will be instructed in the following subjects: genetics, biochemistry, embryology, anatomy and physiology of skin and adnexal structures, pathomechanisms of all dermatological diseases, immunology, bacteriology, mycology, virology, parasitology, internal medicine, nutrition, oncology, pharmacology, clinical pathology, dermatopathology and comparative dermatology.

20. Resident’s benefits: (Please give a general list of benefits and then whom a potential candidate should contact to get more specific information on salary and benefit packages)
   a. Full salaried position
   b. Health, dental, and vision plans
   c. 401K retirement plan
   d. 2 weeks vacation
   e. Additional time off to attend annual dermatology meeting
   f. Time for up to a 2 week externship

21. Does the program allow the resident to attend the NAVDF (North American Veterinary Dermatology Forum) meeting annually? Yes

22. Does the program pay for the resident to attend the NAVDF meeting annually? Yes

23. Average number of days a resident will spend on clinics per month: 15.7
24. Average number of days a resident will spend on non-clinical pursuits per month (not including Sundays or holidays): 8

25. Does the resident have to take general medicine emergency duty? No

26. Does the resident take Dermatology emergency duty? No
   If so how often:

27. Is time allotted for externships in other subspecialties or at other dermatology practices? Yes If so explain: During the residency, the resident is encouraged to spend time (up to 2 weeks) at other dermatology practices, either for additional histopathology training or other advanced clinical training.

28. How much time is allotted off clinics for board preparation? Now that the exam is held in November, and the residency will be completed in July, the resident should have ample time to study for the exam.

29. How much time is allotted to carry out a research project (grant writing, data collection, paper preparation) during the residency (please report in number of weeks)? 17 weeks

30. What are the other responsibilities/duties of the resident?
   a. Complete a research project and present results at annual dermatology meeting
   b. Publish the findings of their research results in a peer reviewed scientific journal approved by the ACVD.
   c. Assist mentors with client messages
   d. Present dermatology lectures to area veterinarians

31. How many residents has the program had over the past 10 years? 2

32. How many/what percentage of the above residents (question 31) passed credentials on the
   a. First submission - 100
   b. Second submission - NA
   c. Third submission or more - NA
   d. Never passed credentials - NA

33. How many/what percentage of the above residents (question 31) sat boards for the first time
   a. The year they finished their residency - 100
   b. One year after finishing their residency - NA
   c. Two or more years after finishing - NA
   d. They never took boards - NA
34. How many / what percentage of the above residents (question 31) passed the board exam on their
   a. First time taking the exam - 100
   b. Second time taking the exam - NA
   c. Third time or more taking the exam - NA
   d. Never passed - NA

35. Is your residency program reviewed by an outside committee at your university?   NA
    If yes how often?   NA

36. Please list the papers published by your last 5 residents.   NA

37. Names of your last 5 residents and whether they are willing to be contacted by potential residents:  NA
